

# Cropdata

## Software Release Notice 11

October 2017

### Introduction

This document describes the amendments and enhancements that have been made to the software.

### Content

#### 1. Field Records

- a. A tick box has been added to the Manure page to indicate if a Field is in an NVZ.
- b. For each Crop you can now specify if it is a 'Following Crop' – by this we mean that the Field has been cropped 2x in a Harvest Year.

#### 2. Stock Records

- a. On the Sprays page you can now specify the Active Ingredients.

#### 3. Field Events

- a. The Allocation of Crops has been changed so that you can make any adjustments to areas as you enter them. The entries are made into a grid which has been pre-populated with Fields, their unallocated area, and previous crop. Multiple crops in a Field for a Harvest Year are now supported.

#### 4. Field Operations

- a. There is now more space at the top of the screen in Tank Mixes.
- b. Planned Operations can now be upgraded to Completed by ticking the appropriate box in New and One Crop Operations, and picking them from the list below.

#### 5. Reports

- a. Job Sheets have been modified to show Fields getting the same treatment on the same page rather than having a separate page for each.
- b. Only Fields that are in an NVZ (see 1a) are included in NVZ Reports.
- c. IACS Reports have been removed as they are no longer relevant.

### Installation

1. If you are not already running Version 10.xxx, you will need a new Activation Key from us. This can be requested by emailing [support@farmdata.co.uk](mailto:support@farmdata.co.uk).
2. Ensure that you have an up-to-date backup of Cropdata.
3. From within Cropdata choose 'Help' -> 'Download Latest Update'.
4. Press 'Next' to proceed and 'Start' to bring down and install the Update.
5. After installation, you should check that you are running Version 10.000 or higher ('Help' -> 'About Cropdata' will confirm).
6. Process Complete.

Users of the mobile version of Cropdata must also update this at the same time, and this is available from <http://www.farmdata.co.uk/general-info/user-club-program-update>

**DISCLAIMER**

Farmdata Limited assume no responsibility or liability for:

The results of any errors occurring during the update, not notified immediately to ourselves. Users failure to keep adequate numbers of complete backup sets should, for whatever reason at whatever time, it proves necessary to resort to restoring a backup. Any work required on the part of Farmdata to 'rescue' data etc, is chargeable under these circumstances.
