

Cropdata & Nvzdata Software Release Notice 9

October 2012

Introduction

In this release of the software we have taken the opportunity to move it into the latest version of the programming language and report writing software. We have also done some amendments to cater for the new Autumn Nitrogen rules that apply for 2012 onwards.

This update is **only suitable** for Windows XP, Vista & Windows 7 machines.

Content

1. NVZ

- a. To cater for the new values of Nitrogen that become available for Autumn applied Organic Nitrogen a new section has been added called "Livestock Manure Types". This contains the additional values that apply on top of the Standard Values for each Livestock Manure.

2. Reports

- a. The NVZ Reports have been adjusted to take into account the new values for Autumn Nitrogen that apply from 2012.

DISCLAIMER

Farmdata Limited assume no responsibility or liability for:

The results of any errors occurring during the update, not notified immediately to ourselves. Users failure to keep adequate numbers of complete backup sets should, for whatever reason at whatever time, it prove necessary to resort to restoring a backup.
