

Cashdata & Financialdata Software Release Notice 9

October 2012

Introduction

In this release of the software we have taken the opportunity to move it into the latest version of the programming language and report writing software.

This update is **only suitable** for Windows XP, Vista & Windows 7 machines.

Content

1. Transactions

- a. The entry of Transactions has been amended to prevent the error that some users experienced when they went to “Save” a new Transaction.

2. Transaction Activation

- a. This now copes with large Non-Cheque Numbers.

3. Period End

- a. A check is now done before a Period can be closed to ensure that the Analysis for the Period balances.

4. Maintenance Routines

- a. The option to “Omit Quantities from Budgets” has been added to the Financial page.

DISCLAIMER

Farmdata Limited assume no responsibility or liability for:

The results of any errors occurring during the update, not notified immediately to ourselves. Users failure to keep adequate numbers of complete backup sets should, for whatever reason at whatever time, it prove necessary to resort to restoring a backup. Any work required on the part of Farmdata to “rescue” data etc, is chargeable under these circumstances.
